About Me

My most recent role is Senior Frontend Engineer; most of my work involves Tailwind CSS, Responsive Design and Vue.js. Enjoys mentoring and clear documentation.

Experience

Mar 2025 - Present

Senior Frontend Engineer
Stonebridge Health

- Built reusable UI components for the main web application
- Improved page load time by 35% through code splitting and image optimisation (JavaScript, Tailwind CSS)
- Added automated tests that caught regressions before release (JavaScript, Node.js)
- Led the move of 3 legacy screens to a modern framework (Tailwind CSS, TypeScript)

Apr 2022 - Jan 2025

Frontend Developer
Quartzline Software

- Maintained a shared component library used across 4 products
- Worked with designers to turn mock-ups into accessible, responsive pages (Next.js, JavaScript)
- Added automated tests that caught regressions before release (TypeScript, Next.js)
- Led the move of 6 legacy screens to a modern framework

Feb 2021 - Mar 2022
